

## **COVID Safety**

### **The Arts Society Bath**

Guidance for members attending Widcombe social club based on Government Guidance on hygiene, social distancing and health.

1. For the benefit of others, members are requested not to attend the lecture if feeling unwell.
2. For the protection of themselves and others all members are requested to wear face coverings at all times in the premises.
3. Hand sanitation is available and members are asked to use this.
4. Where possible, social distancing will be followed. In previous years members arriving just before the lecture begins have tended to congregate at the sign-in desk. Please therefore arrive early enough so that you can sign-in and follow social distancing. You will be guided to the signing-in desk and please follow the route as requested. When you have signed in please take your seat.
5. For members who have difficulty with the stairs, and wish to use the lift, (which is small) please leave enough time to get to your seat before the lecture starts. There will be a social distance queueing system for the lift.
6. Once the lecture has concluded, please leave the club as quickly as possible

This guidance is necessary in order to minimise the risk for us all. However we hope you will delight in being there in person and that you enjoy the lecture.
